Os espirituais franciscanos Nachman Falbel 1995 Nas primeiras décadas da fundação da Ordem Franciscana, na Idade Média, um debate interno desembocaria numa polémica maior sobre o conceito de plenitudo potestatis - o poder do Papa - e sua relação com a cristandade. Esse tema, raramente abordado em língua portuguesa, é o ponto de partida para a rigorosa pesquisa de Nachman Falbel, que a coleção Estudos da Editora Perspectiva traz a todos os que se interessam por um período formador da civilização ocidental.

Beyond Faith and Rationality Ricardo Sousa Silvestre 2020-09-16 This volume deals with the relation between faith and reason, and brings the latest developments of modern logic into the scene. Faith and rationality are two perennial key concepts in the history of ideas. Philosophers and theologians have struggled to bring into harmony these otherwise conflicting concepts. Despite the diversity of approaches about what rationality effectively means, logic remains the cannon of objective and rational thought. The chapters in this volume analyze several issues pertaining to the philosophy of religion and philosophical theology from the perspective of their relation to logic and the benefit they can derive from the use of modern logic tools. The book is divided into five parts: (I)

Introduction, (II) Analytic Philosophy of Religion, (III) Logical Philosophy of Religion, (IV) Computational Philosophy and Religion and (V) Logic, Language and Religion. This text appeals to students and researchers in the field.

Ao pé de cada hora Salvador García-Bodaño 1980 Hai neste libro un sentimento de identificación con Galicia, unha solidariedade entrañable cos mártires que agardan debaixo das súas lousas pola xustiza, a dor pola perda das grandes figuras representativas do noso pobo, a tensión iluminada e atormentada do amor, a misteriosa soidade do recanto máis profundo do espírito...

EL DIOS IM-POTENTE Paulo Roberto Gomes 2015-07-07 El sufrimiento y el mal despiertan una serie de interrogantes siempre recurrentes. Tratándose de hombres y mujeres en el contexto de la mentalidad moderna, surge el cuestionamiento: ¿cómo armonizar la afirmación de un Dios

todopoderoso con la realidad del sufrimiento y del mal, salvaguardando la autonomía del ser humano y del mundo? A través del discurso de tres teólogos contemporáneos, Andrés Torres Queiruga, Jürgen Moltmann y Jon Sobrino, el presente libro trata de responder a este cuestionamiento, enfatizando en el aporte de cada uno de ellos. El estudio parte de una cuestión pastoral, que se refleja en una forma teológico-sistemática, con miras a una praxis cristiana creciente para erradicar, amenizar y/o integrar el sufrimiento y el mal.

Caderno De Estudo Do Catecismo Diego Borges 2023-10-16 Dividido em 4 partes, esta obra tem por objetivo apresentar a doutrina sistematizada no Catecismo da Igreja Católica. Assim, de forma simples e direta, o texto introduz o leitor nos grandes pilares da fé católica, percorrendo temas como o Credo Apostólico, os 7 Sacramentos, os 10 mandamentos e o Pai Nosso como modelo de oração. Não queremos com essa obra substituir o Documento Oficial da Santa Igreja, que é o Catecismo da Igreja Católica, mas apresentá-lo de forma simples e introdutória, para que o leitor possa, posteriormente, ler o Catecismo com maior clareza e propriedade. Faço votos que o leitor consiga aprofundar sua fé e se apropriar da herança que nos foi deixada por Cristo, da qual a Santa Igreja é guardiã e comunicadora. Que Deus te conduza e te fortaleça nessa bela descoberta de um inesgotável tesouro. Boa Leitura!

O tempo de uma presença Juan José Silvestre (ed.)

From Athens to Chartres Édouard Jauneau 1992 The intellectual history of the Middle Ages involves many earlier traditions and developments from them, but just as many completely new lines of thought. The influence of Classical Antiquity is always present: in the continuation and adaptation of late antique forms of education and intellectual training, but also in the works of the Latin Church Fathers and of the major ancient philosophers whose works were passed down and built upon in the Middle Ages. From the 12th century onwards Arabic-Islamic learning, which bore the clear stamp of Greek philosophy and science, became known in Latin-speaking Europe and was a catalyst for many new developments. In keeping with the educational system of the period, theology and philosophy, the latter being seen as a universal science, were the main vehicles of intellectual life. In logic, ethics and natural philosophy as well as in scientific theology, medieval scholars attained standards, which in some cases have not even been equalled today. 'Studien und Texte zur Geistesgeschichte des Mittelalters' aims to address itself to this cultural plurality with a correspondingly broad publication programme. It is open to specialist research into the influence of Classical philosophy, to text editions, to monographs on the history of various intellectual problems, to examinations of hitherto undiscovered or undervalued contributions by medieval thinkers to the development of thought. Conceived as an homage for Edouard Jauneau - maitre par excellence - the volume is

introduced by a reconstruction of the Creation on the North portal of Chartres Cathedral, followed by a section on the transmission of significant texts, such as Plato's Timaeus, through the manuscript tradition. The chapter on later Greek philosophy contains studies on Plotinus and Augustine, Proclus, and Pseudo-Dionysius. A separate section interprets the thought of Johannes Scottus Eriugena, whose connections with earlier authors and influence on medieval neoplatonists constitutes a leitmotiv throughout the volume. The twelfth century is represented by articles on Gilbert of Poitiers on matter, Adelard of Bath, Honorius of Autun, Abelard's ethics and theology, monastic asceticism, Hildegard of Bingen's allegories, allegorical zoology, Alan of Lille's anthropology, the role of the Muses, and the Hermetic Asclepius. The particular usefulness of this study is its presentation of neoplatonic thought in its historical unfolding from Antiquity to the Later Middle Ages through a wide range of disciplines, focused on specific ideas and metaphors.

Filosofía, arte y mística PAREDES MARTÍN, María del Carmen 2017-07-01 Las colaboraciones reunidas aquí afrontan, vistas en su conjunto, tres temas que están relacionados entre sí, aunque no siempre se tienen debidamente en cuenta. La filosofía tiene la doble capacidad de descansar en sí misma y, al mismo tiempo, de proyectarse al resto de las actividades humanas. Precisamente, el arte y la mística tienen raíces muy profundas cuya adecuada explicación recibe un esclarecimiento fundamental mediante una mirada a la filosofía. Históricamente, esta implicación ha tenido manifestaciones muy destacadas, tanto en el terreno estrictamente filosófico, como en el artístico y

en el místico. Esto es lo que se ofrece a lo largo de las páginas de este volumen, en el que se presenta un elenco de investigaciones que desde perspectivas diferentes ponen de relieve la importancia y el sentido actual de los temas tratados.

Beyond Babel: Religion and Linguistic Pluralism Andrea Vestrucci 2023-10-31 This volume is the first attempt to investigate explicitly how the multiplicity of religions and forms of spirituality interconnect with the pluralism of languages, including scientific codes, formal languages, and artistic expressions. In a journey “beyond Babel”, the volume explores how religious and linguistic pluralisms enter into polyphonic relations, how they co-evolve and grow together, and why they clash. This text provides the setting for a dialogue on a rich variety of religious languages and traditions, including Hinduism, Judaism, Islam, Jainism, and Christianity. The chapters explore how these traditions can venture into new interreligious paths, how sacred meanings translate into vernacular speeches, how religious identities and scientific notions interact, what role emotional expressions play in interfaith encounters, and the impact of Artificial Intelligence on beliefs. The book is authored by esteemed senior scholars, established researchers, and exceptional junior doctorate holders whose expertise spans across religious studies, the history of science, philosophy, fine arts, theology, linguistics, computer science, and legal studies. This volume contributes to interfaith studies and teaching, to sociology and philosophy of religion, and to the history and anthropology of religion and the sacred arts. It is intended to reach students, researchers, instructors, and professionals alike.

Como Deus pode ser um e três ao mesmo tempo? | Coleção Teologia para todos Pedro Pamplona 2023-11-20 Se Deus é um, como Ele também pode ser três? E se Ele é mesmo três, qual é o significado disso? A Trindade é um assunto complexo e fundamental para a fé cristã. O mistério dela é uma dádiva, que mostra como Deus se revela para nós. Mas, vemos a figura do Deus Uno e Trino como algo confuso e intrigante, que nos faz procurar respostas. Todo cristão é chamado para conhecer a Deus e viver de acordo com o que nos foi dado. A partir disso, precisamos tomar cuidado

para não construir uma doutrina onde Deus não pavimentou sua revelação. Neste livro, o autor Pedro Pamplona procura esclarecer essas e outras dúvidas, explorando o tema da Trindade e sua concepção divina. Descubra como preservar o mistério da Trindade como uma ação de reverência e humildade e entenda a grandeza de Deus que vislumbramos por meio dela.

Trinidad y sociedad José Mario Vázquez Carballo 2008 Leonardo Boff ha sabido iluminar el Misterio Trinitario desde perspectivas nuevas y originales. Hace teología trinitaria en perspectiva social, vivenciada y tematizada desde el contexto del Tercer Mundo y desde las claves epistemológicas de la Teología de la liberación. J. Mario Vázquez ha tenido el coraje de enfrentarse con la propuesta trinitaria de Boff. Además, en este libro hace una presentación del teólogo brasileño y del conjunto de su teología. La biografía de Boff que aquí ofrece es, sin duda, la mejor hoy por hoy. En cuanto al análisis y la valoración de la aportación trinitaria de Leonardo Boff, el autor ha sabido captar bien la originalidad del teólogo brasileño. Ha relacionado esa perspectiva con otras existentes en la producción teológica actual. Y, como no podía ser menos, ha sabido valorarla desde una amplia comprensión de la historia teológica del Misterio Trinitario. Quizás lo que más valorarán muchos lectores de la presente obra serán las referencias a las implicaciones pastorales del discurso trinitario boffiano. Estamos, pues, ante una magnífica síntesis, tanto de la persona y de la obra teológica como, especialmente, de la específica aportación trinitaria de Leonardo Boff.

O mistério da Trindade Alexandre Palma 2018-08-22 Falar da Santíssima Trindade é um grande desafio para a inteligência humana. O mistério de um só Deus em três pessoas desafia nossas experiências mais imediatas que separam e distinguem as coisas em suas particularidades. /nA filosofia expressou esse dado afirmando que uma coisa não pode ser e não ser ao mesmo tempo e em

um mesmo lugar. A fé cristã afirma que Deus é Um e Três. Mesmo que no decorrer da história os teólogos tenham se esforçado para formular uma explicação para essa profissão de fé, ela permanece, na verdade, como um dos grandes mistérios da revelação de Deus. /nA presente obra do teólogo português, Alexandre Palma, expressa mais um esforço de aproximação do grande Mistério do Deus cristão. O autor o faz pela via da experiência, buscando nesse âmbito da existência humana os sinais do Deus Uno e Trino. Com linguagem agradável, conduz o leitor à percepção desses sinais e dialoga, ao mesmo tempo, com a longa tradição da doutrina e da reflexão trinitárias./n
