NOTICE ABOUT EPILEPSY AND SEIZURES
PLEASE READ THIS NOTICE BEFORE YOU OR YOUR CHILD USE ANY VIDEO/COMPUTER GAME.

A very small portion of the population has a condition, which cause a momentary loss of consciousness when viewing certain kinds of flashing lights or patterns that are commonly present in our daily environment. This condition may cause seizures while watching some kinds of television pictures or playing certain video/ computer games. Players who have not had any previous seizures may nonetheless have an undetected epileptic condition.

If you or anyone in your family has experienced symptoms linked to an epileptic condition (e.g. a seizure or loss of awareness), consult your physician before playing video/computer games.

We recommend that parents observe their children while they play video/ computer games. If you or your child experience any of the following symptoms such as dizziness, altered vision, eye or muscle twitching, involuntary movements, loss of awareness, disorientation or convulsions, **DISCONTINUE USE IMMEDIATELY** and consult your physician. Additionally, please follow these precautions whenever playing a video/ computer game:

• Do not play if you are tired or need sleep.
• Always play in a well lit room.
• Be sure to take a 10-15 minute break every hour while playing.
