INITIAL INFORMATION ON PAROLED (DT) – PORT OF ENTRY

An alien can be considered for parole if he or she is inadmissible or removable from the United States. The “DT” and “DE” codes were created to justify the reason for parole in specific cases.

To ensure that reasons for a port parole are consistent across OFO, users are now prompted to select a reason from the available dropdown menu and annotate an approving supervisor.

Note: As a reminder, the parole of an alien into the United States must be documented on a Form I-94 and include the parole stamp.
