

xenic

xenic

Taking off in full flight is our latest addition of our impressive line of office chairs. A chair gifted by nature as our designer (Joe Leong) was fully inspired by the dance of the multi-colored butterfly... that its wings are now fully supporting and caressing the lumbar for a comfortable seating posture.

Xenic transformation from nature's eco-environment in the insect world has humanised our latest products allowing us to cocoon in our seats while we perform our best...

- A Supportive Backrest**
Mesh designed backrest allows you to fit your body closely and provide breathability for comfortable sensation even after long hours of sitting.
- B Armrest**
Xenic armrest comes in ergonomic design with curve area for you to rest your hand comfortably. It is available with height adjustable and fixed armrest.
- C Changeable Seat Cover**
One of Xenic great feature is its changeable seat cover. Its creative, stylish and flexible designed fabric seat cover is easy for you to velcro over.
- D Adjustable Headrest**
The nylon headrest with height adjustment and intuitively bend function allows you to adjust it to best suit your posture for utmost comfort with colourful fabric cover.
- E Adjustable Lumbar Support**
Xenic lumbar support comes in various colours together with spring load adjustment, which allows you to adjust it in various heights, in orders to keep your pelvic in the correct position. It made of High Density Polyethylene (HDPE), a lightweight and tensile strength plastic that is recyclable yet environmentally friendly.
- F Seat Depth Adjustment**
Xenic's adjustable seat depth allows you to move the seat pan to accommodate different leg length for better comfort.
- G Synchronized Multi-locking Mechanism**
Automatically coordinates your seat and back movement, and lock your ideal position that suit to your required posture.

OPTIONS FOR GREEN

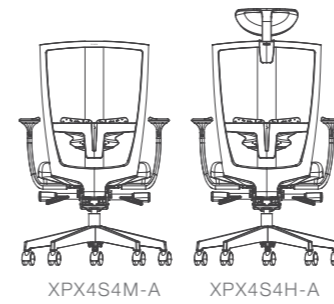

*Natural latex seat is applied only in Xenic chair.

Xenic Seat in Natural Latex
Xenic seat is using natural latex foam that is obtained from the sap of rubber tree. It provides natural spinal support and maximum comfort. The small pinhole design on the cushion offers excellent ventilation to promote air circulation on your seat. In addition, natural latex is elastic and highly resilient, it allows the cushion to return quickly to their original shape after being compressed. Thus Xenic cushion shape is resistance to compression and comfort to the shape of your body. With this seat cushion made of natural latex, the entire chair become a highly sustainable product and qualified as a "GREEN CHAIR".
